Fund Acceleration Contribution (FAC):

In case the Participant has extra funds available, the plan provides the flexibility to channel these to the Plan and provide a boost to the savings. These lump sum contributions are called Fund Acceleration Contributions (FAC) and can be paid anytime during the year where membership is active. The minimum FAC payable is PKR 20,000 per payment. 100% of FAC payment is allocated to purchase units

Complete and Partial Surrender:

WTO will charge an additional Wakalat-ul-Istismar fee equivalent to 50% of the total cash value in case of surrender before payment of two full-year contributions. At the time of withdrawal, you will be paid the full cash value of your fund. However, withdrawal in early membership years may result in lower cash value. A facility for partial withdrawals is also available subject to Rs. 20,000 remaining in the fund if the customer opts for complete surrender, all units will be encashed and the plan will be terminated.

Indexation:

Once you select this option, the contribution will increase every year by 5% of the prior year's contribution indefinitely. Similarly, the sum covered will increase in the same proportion. You may, however, opt to increase only the contribution while keeping the sum covered at the initial level, thus channeling this increase in contribution to boost your accumulation of capital only. Sum Covered indexation is only available until age 55, provided you were accepted on standard terms initially.

What is Takaful?

Takaful is a Shariah compliant way of safeguarding yourself and your family against future financial losses. A Takaful product assists participants to share their risk on the basis of cooperation, brotherhood, mutuality and solidarity for the common good.

How does the Takaful Membership operate?

EFU Life's Takaful model is founded on the Wakalah-Waqf principle. Individuals in the community come together for a common purpose and contribute into a Waqf Fund operated by a Takaful Operator to protect themselves against future financial losses. The following pictorial representation summarizes how your Takaful membership will operate with EFU Life - WTO:

What is Surplus Sharing?

Takaful offers a unique feature of Surplus Sharing to the Participants in addition to risk mitigation benefits. By contributing Tabarru (donation) into the Participant's Takaful Fund (PTF), the participant may be entitled to a share of possible surplus funds. At the end of each year, EFU Life - Window Takaful Operations will determine the surplus in the PTF based on the method approved by the Shariah Advisor and Appointed Actuary.

What are the benefits of Surplus Sharing?

A part of the surplus may be distributed back to the participant in the form of Bonus Units through additional unit allocation in the Participant's Investment Account (PIA). These Bonus Units will enhance the Cash Value of your Takaful plan.

Waqf Donation:

Waqf Donation, which depends on the Takaful cover and age of the Participant, will be transferred from Basic Plan Contribution into Participants Takaful Fund (PTF).

Benefits:

This is particularly convenient if the Participant is unable to continue with the Contributions but requires the coverage. The ETT option cannot be availed prior to the contribution of 10 membership years. Riders (if any) will be discontinued once ETT is selected.

It is the amount payable on death. The Sum Covered is determined as the Basic Plan Annual Contribution multiplied by the "protection Multiple", which may be selected from a range depending on the age at entry as illustrated.
